

Job: 'Gutted kitchen needs plaster following electrical works'

Angus is highly recommended because he was professional from start to finish. He gave a complete, itemised quote. He kept to the quote and finished in a shorter time than the max quote.

What I thought was so good was that he worked to such a high standard, fast, clean, tidy and thorough. Part way into the job I realised we couldn't do what we were aiming for, we discussed and he provided the solution that still came within the overall budget.

Given that 2 years ago I had 2 builders in for two days and they achieved nothing I was really nervous about employing anyone again. Yes - the kitchen had remained bare brick whilst I found someone. Angus achieved in 2 days what it could have taken the previous people a fortnight to do.

I would use him again and have no hesitation in recommending him for plastering work. Even better, I have regained a bit of credence with my husband who feels that plastermaster.org is a real find. He is even planning what else we can have done!
Moirra – February 2008

Job: 'Get rid of crappy stippled 70's ceilings'

Angus did a great job. I added a couple of 'little extras' that he was happy to do without affecting the quote. He's a conscientious worker with the care and attention to address issues and adapt to the situation presented him. I felt confident about leaving him in my house while i was at work without concern. James- December 2007

Job: '2 ceilings need skimming'

Angus undertook several plastering repairs and also re-skimmed 2 ceilings for us , he was polite,punctual and professional. He did a great job and we would highly recommend him ,
Mr M Howell – July 2007

Job: 'Plaster skim ceiling 40sqm Start within 2 weeks'

Angus and a colleague did the work for us. We were up against a very tight deadline so the work had to be completed in one day which is why Angus brought a second person to help. It was not a straightforward job requiring a bonding agent to be applied first as the plasterboard was a special moisture resistant type.

The job was more complicated than they expected and as a result took much longer.

Instead of whinging and going off at 4.00 and not coming back for a week or a month, they never moaned and just stayed on until about 10.00pm to get it finished.

They arrived promptly at the time they said they would and did an excellent job. My husband is an architect so he checked the quality and was happy.

They were a great pair, full of humour and very capable with a great "can-do" attitude. They were very polite. They cleared up beautifully and left the place cleaner than it was when they started!

I would definitely use them again & highly recommend either of them. You may get cheaper quotes from other tradesmen but I chose them because I felt from the emails I received that they would produce the best job - and they most certainly did. We were delighted & it is now ready for painting.

they would produce the best job - and they most certainly did. We were delighted & it is now ready for painting. Sue Thompson July - 2007

Job: 'Re-build garden wall at front of property. 5M long.'

What a wonderful job and a perfect gent to boot - no problems here, a credit to tradesmen all over. June - 2007

Job: 'Skim over artex'

What a star, angus turned up on time and did what he said he would do - a fantastic finish and a very clean workman. Would highly recommend and I will certainly use him again. Finding a gem like this will save me lots of time hunting around, so many skills to offer. Claire – June 2007
